

SAUDI EVENT MANAGEMENT

EST. 2026

CONNECTING YOU TO TRUSTED EVENT PARTNERS ACROSS SAUDI ARABIA

ABOUT US

Saudi Event Management is a B2B event coordination platform connecting clients with trusted, vetted event service providers across Saudi Arabia. We simplify event planning by acting as a single point of contact — understanding client requirements, identifying suitable vendor partners, comparing options, and coordinating the full process from first brief to execution.

OUR MODEL

We do not operate as a traditional in-house production company. Instead, we partner with independent, specialized vendors across key categories including AV & production, entertainment, hospitality, and logistics. We match the right partners to each client's unique needs — saving time, optimizing budgets, and ensuring quality through careful, unbiased vendor selection.

WHAT WE OFFER

- **Single Point of Contact:** Seamless multi-vendor coordination through one dedicated manager.
- **Vendor Sourcing & Comparison:** Transparent access to a curated network of top-tier local providers.
- **Project & Timeline Management:** End-to-end communication and execution tracking to ensure deadlines are met.
- **Bilingual Support:** Professional Arabic-English client support bridging communication gaps.

OUR FOCUS

Currently building a curated network of trusted vendor partners across Riyadh, with strategic plans to expand Kingdom-wide. As a founder-led startup, our core focus is rooted in absolute transparency, rapid responsiveness, and long-term partnership building.

"To become one of the leading event coordination platforms in the Kingdom, supporting Saudi Arabia's growing events ecosystem under Vision 2030."
